

Intuitive Machines Delivers Second Lunar Mission Lander to Cape Canaveral, Florida

January 2, 2025

HOUSTON, Jan. 28, 2025 (GLOBE NEWSWIRE) -- Intuitive Machines, Inc. (Nasdaq: LUNR, LUNRW) ("Intuitive Machines" or the "Company"), a space exploration, infrastructure, and services company, announced that it has delivered its IM-2 mission lunar lander, named Athena, to Cape Canaveral, Florida following a historic southeast Texas snowfall.

"Each lunar mission builds on the last, and Athena's arrival in Florida demonstrates our dedication to delivering on the Company's vision to providing a reliable cadence of lunar delivery services," said Intuitive Machines CEO Steve Altemus. "This commitment to flying missions reinforces our broader efforts of developing a heavy cargo lander, establishing a lunar data relay satellite constellation, and providing sustainable infrastructure services at the Moon to enable further exploration of the solar system."

In coordination with SpaceX, the liftoff of the IM-2 lunar mission is targeted for a four-day launch window that opens no earlier than February 26. In case of unfavorable launch conditions, such as inclement weather, backup opportunities will be determined based on the lunar blackout window and other factors.

IM-2 mission lunar lander Athena at Intuitive Machines' Houston headquarters

In coordination with SpaceX, the liftoff of the IM-2 lunar mission is targeted for a four-day launch window that opens no earlier than February 26. In case of unfavorable launch conditions, such as inclement weather, backup opportunities will be determined based on the lunar blackout window and other factors.

Commanded using Intuitive Machines' commercial Lunar Data Network, IM-2 will be the Company's second of four manifested lunar missions as part of NASA's Commercial Lunar Payload Services ("CLPS") initiative. Through the CLPS initiative and Artemis campaign, NASA is leveraging American companies to send scientific instruments and technology demonstrations to the Moon, advancing our understanding of the Moon and planetary processes, while paving the way for future crewed missions. Athena's mission is designed to validate resource prospecting, mobility, and communications infrastructure in the Moon's Mons Mouton region, one of nine potential Artemis III landing sites.

About Intuitive Machines

Intuitive Machines is a diversified space exploration, infrastructure, and services company focused on fundamentally disrupting lunar access economics. In 2024, Intuitive Machines successfully landed the Company's Nova-C class lunar lander, Odysseus, on the Moon, returning the United States to the lunar surface for the first time since 1972. The Company's products and services are offered through its four in-space business units: Lunar Access Services, Orbital Services, Lunar Data Services, and Space Products and Infrastructure. Forward-Looking Statements

This press release includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements that do not relate to matters of historical fact should be considered forward looking. These forward-looking statements generally are identified by the words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “strive,” “would,” “strategy,” “outlook,” the negative of these words or other similar expressions, but the absence of these words does not mean that a statement is not forward-looking. These forward-looking statements include but are not limited to statements regarding: our expectations, results and plans relating to our second mission to the Moon, including the expected timing and success of launch and landing for our second lunar mission. These forward-looking statements reflect the Company’s predictions, projections, or expectations based upon currently available information and data. Our actual results, performance or achievements may differ materially from those expressed or implied by the forward-looking statements, and you are cautioned not to place undue reliance on these forward-looking statements. The following important factors and uncertainties, among others, could cause actual outcomes or results to differ materially from those indicated by the forward-looking statements in this press release: our factors detailed under the section titled Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 filed with the Securities and Exchange Commission (the “SEC”), the section titled Part I, Item 2, Management’s Discussion and Analysis of Financial Condition and Results of Operations and the section titled Part II. Item 1A. “Risk Factors” in our most recently filed Quarterly Report on Form 10-Q, and in our subsequent filings with the SEC, which are accessible on the SEC’s website at www.sec.gov.

These forward-looking statements are based on information available as of the date of this press release and current expectations, forecasts, and assumptions, and involve a number of judgments, risks, and uncertainties. Accordingly, forward-looking statements should not be relied upon as representing our views as of any subsequent date, and we do not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date they were made, whether as a result of new information, future events, or otherwise, except as may be required under applicable securities laws.
