Item 8.01. Other Events.

On September 24, 2021, Inflection Point Acquisition Corp. (the "Company") consummated its initial public offering ("IPO") of 30,000,000 units (the "Units"). Each Unit consists of one Class A ordinary share of the Company, par value \$0.0001 per share (the "Class A Ordinary Shares"), and one-half of one redeemable warrant of the Company (each whole warrant, a "Warrant"), with each Warrant entitling the holder thereof to purchase one Class A Ordinary Share for \$11.50 per share, subject to adjustment. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$300,000,000. Under the terms of the Underwriting Agreement, the Company granted the underwriters an option, exercisable for 45 days, to purchase up to an additional 4,500,000 Units at the same price.

On September 24, 2021, simultaneously with the consummation of the IPO, the Company completed the private sale (the "<u>Private Placement</u>") of an aggregate of 6,250,000 warrants (the "<u>Private Placement Warrants</u>") to Inflection Point Holdings LLC at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$6,250,000.

A total of \$300,000,000, comprised of \$296,000,000 of the proceeds from the IPO (which amount includes \$10,500,000 of the underwriters' deferred discount) and \$4,000,000 of the proceeds of the sale of the Private Placement Warrants, was placed in a U.S.-based trust account at J.P. Morgan Chase Bank, N.A. maintained by Continental Stock Transfer & Trust Company, acting as trustee.

An audited balance sheet as of September 24, 2021 reflecting receipt of the proceeds upon consummation of the IPO and the Private Placement has been issued by the Company and is included as Exhibit 99.1 to this Current Report on Form 8-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Inflection Point Acquisition Corp.

Opinion on the Financial Statement

We have audited the accompanying balance sheet of Inflection Point Acquisition Corp. (the "Company") as of September 24, 2021, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the balance sheet of the Company as of September 24, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

INFLECTION POINT ACQUISITION CORP. NOTES TO FINANCIAL STATEMENT

Note 1— Organization, Business Operations and Going Concern

Inflection Point Acquisition Corp. (the "Company") is a newly incorporated blank check company incorporated as a Cayman Islands exempted company on January 27, 2021. The Company was incorporated for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the "Business Combination"). The Company has not selected any specific Business Combination target and the Company has not, nor has anyone on its behalf, engaged in any substantive discussions, directly or indirectly, with any Business Combination target with respect to an initial Business Combination with it.

As of September 24, 2021, the Company had not commenced any operations. All activity for the period from January 27, 2021 (inception) through September 24, 2021 relates to the Company's formation and the Initial Public Offering (the "IPO") which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Initial Public Offering. The Company has selected December 31 as its fiscal year end.

The Company's sponsor is Inflection Point Holdings LLC., a Cayman Islands limited liability company (the "Sponsor"). The registration statement for the Company's IPO was declared effective on September 21, 2021 (the "Effective Date"). On September 24, 2021, the Company's consummated the IPO of 30,000,000 units at \$10.00 per unit (the "Units"), which is discussed in Note 3. The underwriters have a 45-day option from the date of the IPO to purchase up to an additional 4,500,000 Units to cover over-allotments, if any.

Simultaneously with the closing of the IPO, the Company consummated the sale of 6,250,000 warrants (the "Private Placement Warrants") to the Sponsor at a price of \$1.00 per Private Placement Warrant in a private placement, generating gross proceeds to the Company of \$6,250,000, which is described in Note 4.

An aggregate of 12 qualified institutional buyers ("Anchor Investors") expressed an interest to purchase an aggregate of approximately \$322.3 million of the units sold in the IPO. The Anchor Investors were allocated and purchased a total of 29,540,000 Units or 98.5% of the outstanding Units following this offering (assuming no exercise of the over-allotment option). One of the Anchor Investors, Kingstown 1740 Fund, LP, is an affiliate of the Sponsor, and was allocated and purchased 2,900,000 Units sold in the IPO.

In addition, subject to each Anchor Investor purchasing 100% of the Units allocated to it, in connection with the closing of the IPO, the Sponsor sold membership interests reflecting an allocation of founder shares to each Anchor Investor, or an aggregate of 1,625,000 founders shares to all Anchor Investors (see Note 5). The Company estimated the aggregate fair value of these founder shares attributable to anchor investors to be approximately \$9.68 million, or \$5.96 per share. The excess of the fair value of the Founder Shares was determined to be an offering cost in accordance with Staff Accounting Bulletin Topic 5A. Offering costs allocated to the Public Shares and the Public Warrant was all charged to shareholder's equity upon the completion of the IPO.

Transaction costs amounted to \$15,271,938 consisting of \$4,000,000 of underwriting commissions, \$10,500,000 of deferred underwriting commissions, and \$771,938 of other offering costs, and was all charged to shareholders' equity.

Following the closing of the IPO on September 24, 2021, \$300,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Warrants was deposited into a trust account (the "Trust Account") and will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay taxes, if any, the proceeds from the IPO and the sale of the Private Placement Warrants will not be released from the Trust Account until the earliest of (i) the completion of initial Business Combination, (ii) the redemption of the Company's public shares if the Company is unable to complete the initial Business Combination within 24 months from the closing of the IPO, subject to applicable law, or (iii) the redemption of the Company's public shares properly submitted in connection with a shareholder vote to amend the Company's amended and restated memorandum and articles of association to (A) modify the substance or timing of the Company's obligation to allow redemption in connection with the initial Business Combination or to redeem 100% of its public shares if the Company has not consummated an initial Business Combination within 24 months from the closing of the IPO or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial Business Combination activity. The proceeds deposited in the Trust Account could become subject to the claims of the Company's public shareholders.

The Company's management has broad discretion with respect to the specific application of the net proceeds of the IPO and the Private Placement Warrants, although substantially all of the net proceeds are intended to be generally applied toward consummating a Business Combination (less deferred underwriting commissions). The Company's Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the value of the trust account (excluding the amount of any deferred underwriting discount held in trust and taxes payable on the income earned on the trust account). However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder (the "Investment Company Act"). There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide shareholders (the "Public Shareholders") of its Class A ordinary shares, par value \$0.0001, sold in the IPO (the "Public Shares"), with the opportunity to redeem all or a portion of their Public Shares upon the completion of the initial Business Combination either (i) in connection with a general meeting called to approve the initial Business Combination or (ii) without a shareholder vote by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a proposed Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their shares for a pro rata portion of the amount then on deposit in the Trust Account (initially \$10.00 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its taxes).

The Company will have 24 months from the closing of the IPO to complete the initial Business Combination (the "Combination Period"). However, if the Company is unable to complete the initial Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (less tax payable and up to \$100,000 of interest to pay dissolution expenses) divided by the number of then outstanding Public Shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining shareholders and the Company's board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii) to the Company's obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law.

The Sponsor, officers and directors have agreed to (i) waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of the initial Business Combination, (ii) waive their redemption rights with respect to their Founder Shares and Public Shares in connection with a shareholder vote to approve an amendment to the Company's amended and restated memorandum and articles of association (A) to modify the substance or timing of the Company's obligation to allow redemption in connection with the initial Business Combination or to redeem 100% of its public shares if the Company has not consummated an initial business combination within 24 months from the closing of the IPO or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, (iii) waive their rights to liquidating distributions from the Trust Account with respect to their Founder Shares if the Company fails to complete the initial Business Combination within 24 months from the closing of the IPO, although they will be entitled to liquidating distributions from the Trust Account with respect to any public shares they hold if the Company fail to complete the initial Business Combination within the prescribed time frame, and (iv) vote any Founder Shares held by them and any Public Shares purchased during or after the IPO (including in open market and privately-negotiated transactions) in favor of the initial Business Combination.

The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or other similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked the Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and the Company believes that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure that the Sponsor would be able to satisfy those obligations. None of the Company's officers or directors will indemnify the Company for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Liquidity and Capital Resources

As of September 24, 2021, the Company had approximately \$2.1 million in its operating bank account, and working capital of approximately \$1.1 million. In addition, in order to finance transaction costs in connection with a Business Combination, the Company's Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans, as defined below (see Note 5). As of September 24, 2021, there were no amounts outstanding under any Working Capital Loans. On September 30, 2021, the Sponsor agreed to provide the Company with loans in such amounts as may be required by the Company to fund the Company's working capital requirements up to an aggregate of \$250,000 (see Note 8).

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 2— Significant Accounting Policies and Basis of Presentation

The accompanying balance sheet is presented in conformity with accounting principles generally accepted in the United States of America ("US GAAP") and pursuant to the rules and regulations of the SEC.

Emerging Growth Company Status

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the financial statement in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Making estimates requires management to exercise significant judgement. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of September 24, 2021.

Cash Held in Trust Account

As of September 24, 2021, the Company had \$300,000,000 in cash held in the Trust Account.

Concentration of credit risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. As of September 24, 2021, the Company had not experienced losses on this account and management believes the Company was not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximates the carrying amounts represented in the accompanying balance sheet, primarily due to their short-term nature.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". Derivative instruments are initially recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

Offering Costs associated with the Initial Public Offering

The Company complies with the requirements of the ASC 340-10-S99-1. Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the IPO that were directly related to the Public Offering. Offering costs amounted to \$15,271,938 and were charged to shareholders' equity upon the completion of the IPO.

Ordinary Shares Subject to Possible Redemption

The Company accounts for its ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity." Ordinary shares subject to mandatory redemption (if any) are classified as a liability instrument and measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events.

Related Party Redemption Waiver Agreement

In September 2021, the Company entered into a redemption waiver agreement with one of its anchor investors, Kingstown 1740 Fund, LP ("Kingstown"), whereby Kingstown agreed to waive its redemption rights on 1,386,989 Class A Ordinary Shares (the "Non-Redemption Shares") it held, and these ordinary shares are classified as shareholders' equity.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of September 24, 2021, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The Company is considered to be an exempted Cayman Islands company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States.

Recent Accounting Pronouncements

In August 2020, the FASB issued ASU No. 2020-06, Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging-Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06"), which simplifies the accounting for convertible instruments. The guidance removes certain accounting models that separate the embedded conversion features from the host contract for convertible instruments. ASU 2020-06 allows for a modified or full retrospective method of transition. This update is effective for fiscal years beginning after December 15, 2021, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact this change will have on its financial statement.

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statement.

Note 3— Initial Public Offering

On September 24, 2021, the Company sold 30,000,000 Units, at a purchase price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-half of one redeemable warrant. Each whole warrant will entitle the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 7). Each warrant will become exercisable 30 days after the completion of the initial Business Combination and will expire five years after the completion of the initial Business Combination, or earlier upon redemption or liquidation.

One of the Anchor Investors, Kingstown 1740 Fund, LP, an affiliate of the Sponsor, and was allocated and purchased 2,900,000 Units sold in the IPO.

The underwriters have a 45-day option from the date of the Company's IPO on September 24, 2021 to purchase up to an additional 4,500,000 Units to cover over-allotments.

The Company paid an underwriting fee at the closing of the IPO of \$4,000,000. As of September 24, 2021, an additional fee of \$10,500,000 (see Note 6) was deferred and will become payable upon the Company's completion of an initial Business Combination. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account.

Note 4— Private Placement

Simultaneously with the closing of the IPO, the Company's sponsor purchased an aggregate of 6,250,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrants, for an aggregate purchase price of \$6,250,000. The Private Placement Warrants are identical to the warrants included in the units sold in the IPO except that the Private Placement Warrants may not (including the Class A ordinary shares issuable upon exercise of these warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the Company's initial Business Combination. If the Company does not complete the initial Business Combination within 24 months from the closing of the IPO, the Private Placement Warrants will expire worthless.

Note 5—Related Party Transactions

Founder Shares

On February 3, 2021, the Sponsor paid \$25,000, or approximately \$0.003 per share, to cover certain offering and formation costs in consideration for 7,187,500 Class B ordinary shares, par value \$0.0001 (the "Founder Shares"). On March 5, 2021, the Company effected a 1.2 to 1 share recapitalization with respect to its Class B ordinary shares, resulting in the Sponsor holding an aggregate of 8,625,000 Founder Shares. Up to 1,125,000 Founder Shares are subject to forfeiture by the Sponsor depending on the extent to which the underwriters' over-allotment option is exercised.

The initial shareholders have agreed not to transfer, assign or sell any of their Founder Shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) one year after the completion of the initial Business Combination, or (ii) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction after the initial Business Combination that results in all of the Company's shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property; except to certain permitted transferees and under certain circumstances (the "lock-up"). Notwithstanding the foregoing, if (1) the closing price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination or (2) if the Company consummates a transaction after the initial Business Combination which results in the Company's shareholders having the right to exchange their shares for cash, securities or other property, the Founder Shares will be released from the lock-up.

In addition, subject to each Anchor Investor purchasing 100% of the Units allocated to it, in connection with the closing of the IPO, the Sponsor sold membership interest reflecting an allocation of founder shares to each Anchor Investor, or an aggregate of 1,625,000 founders shares to all Anchor Investors. The Company estimated the aggregate fair value of these founder shares attributable to anchor investors to be approximately \$9.68 million, or \$5.96 per share. The excess of the fair value of the Founder Shares was determined to be an offering cost in accordance with Staff Accounting Bulletin Topic 5A. Offering costs allocated to the Public Shares and the Public Warrant was all charged to shareholder's equity upon the completion of the IPO.

Promissory Note—Related Party

On February 2, 2021, the Sponsor agreed to loan the Company up to \$300,000 to be used for a portion of the expenses of the IPO. These loans are non-interest bearing, unsecured and are due at the earlier of December 31, 2021 or the closing of the IPO. As of September 24, 2021, the Company had borrowed \$188,805 under the promissory note, which was fully repaid on September 30, 2021 (see Note 8).

Working Capital Loans

In addition, in order to finance transaction costs in connection with an intended Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans") on a non-interest basis. If the Company completes the initial Business Combination, the Company would repay the Working Capital Loans. In the event that the initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay the Working Capital Loans but no proceeds from the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of such Working Capital Loans may be convertible into Private Placement Warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the Private Placement Warrants. At September 24, 2021, no such Working Capital Loans were outstanding.

Administrative Service Fee

On September 21, 2021, the Company entered into an Administrative Services Agreement with Kingstown Capital Management L.P., an affiliate of the Sponsor, pursuant to which it will also pay a total of \$15,000 per month for office space, utilities, secretarial and administrative support services provided to members of the Company's management team. Upon completion of the initial Business Combination or a liquidation, the Company will cease paying these monthly fees. As of September 24, 2021, nothing has been accrued or paid.

Forward Purchase Agreement

On September 21, 2021, the Company entered into a forward purchase agreement pursuant to which certain affiliates ("Kingstown") of the Sponsor agreed to purchase up to 5,000,000 forward purchase Class A ordinary shares, or forward purchase shares, for \$10.00 per share, or an aggregate amount of up to \$50,000,000, in a private placement that will close concurrently with the closing of the Company's initial business combination, subject to approval by the Kingstown investment committee. The proceeds from the sale of these forward purchase shares, together with the amounts available to the Company from the trust account (after giving effect to any redemptions of public shares) and any other equity or debt financing obtained by the Company in connection with the business combination, will be used to satisfy the cash requirements of the business combination, including funding the purchase price and paying expenses and retaining specified amounts to be used by the post-business combination company for working capital or other purposes. To the extent that the amounts available from the trust account and other financing are sufficient for such cash requirements, Kingstown may purchase less than 5,000,000 forward purchase shares. In addition, Kingstown's commitment under the forward purchase agreement will be subject to approval of its investment committee prior to the closing of our initial business combination. Accordingly, if Kingstown's investment committee does not give its approval, Kingstown will not be obligated to purchase the forward purchase shares. Further, the Company has the right, in its sole discretion, to reduce the amount of forward purchase shares that Kingstown may purchase pursuant to the forward purchase agreement. Pursuant to the terms of the forward purchase agreement, Kingstown will have the option to assign its commitment to one of its affiliates and up to \$5,000,000 to members of the Company's management team or Board of Directors. The forward purchase shares will be identical to the Class A o

Note 6— Commitments and Contingencies

Registration Rights

The holders of the (i) Founder Shares, which were issued in a private placement prior to the closing of the IPO, (ii) forward purchase shares which may be issued under the forward purchase agreement, (iii) Private Placement Warrants which were issued in a private placement simultaneously with the closing of the IPO and the Class A ordinary shares underlying such Private Placement Warrants and (iv) Private Placement Warrants and warrants that may be issued upon conversion of working capital loans will have registration rights to require the Company to register a sale of any of its securities held by them and any other securities of the Company acquired by them prior to the consummation of the initial Business Combination pursuant to a registration rights agreement to be signed on September 21, 2021. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the Company's completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option from the date of the IPO to purchase up to an additional 4,500,000 units to cover over-allotments, if any

On September 24, 2021, the Company paid a cash underwriting discount of 2.0% per Unit, or \$4,000,000, excluding on the proceeds from the purchase of an aggregate of 10,000,000 units by certain of our anchor investors.

The underwriter is entitled to a deferred underwriting discount of 3.5% of the gross proceeds of the IPO, or \$10,500,000, held in the Trust Account upon the completion of the Company's initial Business Combination subject to the terms of the underwriting agreement.

Note 7— Shareholders' Equity

Preference Shares

The Company is authorized to issue 5,000,000 preference shares with a par value of \$0.0001 per share. At September 24, 2021, there were no preference shares issued or outstanding.

Class A Ordinary Shares

The Company is authorized to issue 500,000,000 Class A ordinary shares with a par value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. At September 24, 2021, there were 1,386,989 Class A ordinary shares issued or outstanding, excluding 28,613,011 Class A ordinary shares subject to possible redemption.

Class B Ordinary Shares

The Company is authorized to issue 50,000,000 Class B ordinary shares with a par value of \$0.0001 per share. Holders of the Class B ordinary shares are entitled to one vote for each ordinary share. At September 24, 2021, there were 8,625,000 Class B ordinary shares issued and outstanding. Of the 8,625,000 Class B ordinary shares, an aggregate of up to 1,125,000 shares are subject to forfeiture to the Company for no consideration to the extent that the underwriters' over-allotment option is not exercised in full or in part.

Holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the Company's shareholders except as required by law. Unless specified in the Company's amended and restated memorandum and articles of association, or as required by applicable provisions of the Companies Act or applicable stock exchange rules, the affirmative vote of a majority of the Company's ordinary shares that are voted is required to approve any such matter voted on by its shareholders.

The Class B ordinary shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of the initial Business Combination on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares or equity-linked securities are issued or deemed issued in connection with the initial Business Combination, the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, 20% of the total number of Class A ordinary shares outstanding after such conversion (after giving effect to any redemptions of Class A ordinary shares by public shareholders), including the total number of Class A ordinary shares issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination (including the forward purchase shares), excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor, officers or directors upon conversion of Working Capital Loans; provided that such conversion of founder shares will never occur on a less than one-for-one basis.

Warrants — As of September 24, 2021, there were 15,000,000 Public Warrants and 6,250,000 Private Placement Warrants outstanding. The Company evaluated the terms of the warrants and determined the warrants meet the criteria in ASC 815, "Derivatives and Hedging", to be classified in shareholders equity upon issuance. Each whole warrant will entitle the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as discussed herein. The warrants will become exercisable 30 days after the completion of its initial Business Combination, and will expire five years after the completion of the Company's initial Business Combination at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

The Private Placement Warrants are identical to the warrants included in the units sold in the IPO except that the Private Placement Warrants may not (including the Class A ordinary shares issuable upon exercise of these warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the Company's initial Business Combination.

The Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC a post-effective amendment to the registration statement for the IPO or a new registration statement covering the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixtieth (60th) business day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of Warrants When the Price per Class A Ordinary Share Equals or Exceeds \$18.00

Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption (the "30-day redemption period"); and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three business days before we send the notice of redemption to the warrant holders.

Additionally, if the number of outstanding Class A ordinary shares is increased by a share capitalization payable in Class A ordinary shares, or by a subdivision of ordinary shares or other similar event, then, on the effective date of such share capitalization, sub-division or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding ordinary shares. A rights offering made to all or substantially all holders of ordinary shares entitling holders to purchase Class A ordinary shares at a price less than the fair market value will be deemed a share capitalization of a number of Class A ordinary shares equal to the product of (i) the number of Class A ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A ordinary shares) and (ii) the quotient of (x) the price per Class A ordinary share paid in such rights offering and (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A ordinary shares, in determining the price payable for Class A ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A ordinary shares as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

Note 8— Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date through the date the financial statement was issued. Based upon this review, other than as described below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statement.

On September 28, 2021, the Company repaid \$180,805 of the promissory note balance and on September 30, 2021 repaid the remaining \$8,000.

On September 30, 2021, the Sponsor agreed to provide the Company with loans in such amounts as may be required by the Company to fund the Company's working capital requirements up to an aggregate of \$250,000.
